CRALOG[®] Academy

Inspection of Cranes and/or Lifeboats
- Any make and type!

Lifeboats, rescue boats, launching appliances and release gear

Since 2010, CRALOG Academy has offered a complete training program aimed at service personnel. Together with MARTEC Polytechnic Education Centre, CRALOG provides training in the inspection of lifeboats, rescue boats, launching appliances and release gear in accordance with SOLAS MSC.402(96)

The initial training takes place in Frederikshavn, Denmark and has to be followed up by practical training on board vessels worldwide. The training program is not complete, before the participants have performed real-life inspections and have achieved practical field experience. Inspections have to be documented in the CRALOG database.

CRALOG Academy offers certification of personnel for service providers and shipboard personnel. We have at our disposal all the typical types of lifeboats, launching appliances, winches, engines, and on and off load release gear as well as hydraulic knowhow.

The admission requirements are technical knowledge and experience with each make and type of equipment to be worked on and for which service is to be provided.

Upon completion of the training program, a personal certificate is issued with an expiry date three years from the date of issue. Recertification courses are provided.

Shipboard Cranes and Lifting Appliances

Since 2010, CRALOG Academy has offered a complete training program aimed at service providers and competent persons. Together with MARTEC Polytechnic Education Centre, CRALOG provides training in the inspection of shipboard cranes and lifting appliances in accordance with ILO 152 guidelines and the technical regulations issued by The Danish Maritime Authority for lifting appliances.

The initial training takes place in Frederikshavn, Denmark and has to be followed up by practical training on board vessels worldwide. The training program is not complete, before the participants have performed real-life inspections and have achieved practical field experience. Inspections have to be documented in the CRALOG database.

CRALOG Academy offers certification of personnel for service providers and shipboard personnel. We have at our disposal all the typical types of lifting appliances and winches as well as hydraulic knowhow.

The admission requirements are technical knowledge and experience with cranes and hydraulics.

Upon completion of the training program, a personal certificate is issued with an expiry date three years from the date of issue. Recertification courses are provided.

CRALOG & MARTEC

MARTEC is a maritime and polytechnic education centre located in northern Denmark, and the largest maritime training centre in Denmark. MARTEC offers several degree programs, e.g. Bachelor of Technology Management, Marine Engineering as well as Ship's Assistant (ordinary and able seaman). MARTEC is approved by the Danish Maritime Authority.

MARTEC teachers are marine professionals, for example Masters or Marine Engineers, and the practical training is provided by experienced service technicians.

CRALOG is a recognized service provider approved by the Danish Maritime Authority, and a recognized service supplier approved by major classification societies.

CRALOG Academy is recognized by the Danish Maritime Authority according to the requirements stated in the Danish Authorisation handbook, such as :

- Relevant education
- Training
- Knowledge of regulatory framework.

Bring CRALOG alongside!

Practical information

Below you will find practical information and answers to some of the most frequently asked questions.

You or your company are required to book flight tickets to Aalborg Airport (AAL). Once you arrive in Aalborg, we will arrange for you to be picked up.

During your stay, all local transportation and accommodation is taken care of. We will make sure you have a good stay at the CRALOG Academy. All you have to do is to study and learn.

Educational material is included in the course price and can be used afterwards as a handbook. A small marketing start-up pack is also included in the price. The marketing pack includes:

- CRALOG certified bomber stickers
- Multi-purpose CRALOG stickers
- Iron on logos for textile
- USB with CRALOG logo
- Paper briefcase with logo
- Link to our Dropbox with printable posters, logos and high-resolution marketing pictures at your disposal – for free.
